User Experience Designer Information Architect

updated October 1, 2011

SKILLS

- Business requirements gathering and analysis
- Scenario, use case and persona development
- High and low fidelity wireframes
- Iterative design and testing within the development process
- Task and workflow analysis

TOOLS

- Fluent with OmniGraffle
- Competent with Adobe Illustrator / Fireworks, Microsoft Visio, Office suite and Apple Keynote
- Experience with Adobe Photoshop / Dreamweaver / After Effects / Flash, ActionScript 2.0, HTML, JavaScript and CSS

LANGUAGES

- Proficient in Portuguese (mother tongue) and English
- Some understanding of Spanish, French, Italian and Russian

EXPERIENCE

- User Experience Designer at INQ Mobile (2008-2011)
<http://inqmobile.com>
- Interaction Designer at DLC - Distance Learning Consulting (2005-2008)
<http://dlc.pt>
- Independent Design Consultant for Zhorn Software (2006-2007)
<http://zhornsoftware.co.uk>

I have contributed to these companies with:

- User experience design for iOS / Android / Brew-based software and Flash / HTML-based websites
- Product and service concepts
- Scenarios, use cases and personas
- Low and high fidelity wireframes
- Flow diagrams
- Visual interface design
- UI testing and bug reporting
- Vendor relations
- Project management

At INQ Mobile, I helped produce platform- and application-level designs together with partners such as Facebook, Twitter, Skype, Foursquare, Microsoft, Google and Huawei.

EDUCATION

- Postgraduate Module M865 in Project Management (Open University) (2010-2011)
- Degree in Communication Design (Fine-Arts Faculty of Lisbon University) (1999-2005)
- Participation on international team projects such as the 6th International Summer School on 'People-Centred Interaction Design in the Convivio tradition', in Bollnäs, Sweden (2007), and the International Seminar 'Europe of the Youth and Generations 2004', in Esbjerg, Denmark (2004)
- Participation or attendance on several design, technology and cultural dynamics-related courses and events

INTERESTS

- Cultural and social dynamics
- Service and user experience design
- Information architecture
- Human-machine interface
- Interactive entertainment and digital games
- Graphical storytelling
- E-learning
- Project management
- Usability and media research
